Pitch

Sustainability & Resilience

Personal passion for environmental management and stewardship principles for forty years. Supplemented with practical experience gained from genuine – life threatening – crisis management. Extensive expertise in aviation, manufacturing, shipping, conglomerates and entertainment sectors. Practical advice, simple system implementation, auditing and validation and business continuity planning for both financial and non-financial institutions.

Risk, Insurance & Compliance services

Programme design to match your actual corporate risks. Complement and validate broker advice. Structure bespoke solutions. Represent your risk properly to the market and provide independent advice. Resolution of difficult claims, maximizing income. Know the markets and can solve your problems. From basic ERM implementation to digital risk management and genuine engagement with the board.
